

Construction of upgrades and improvements to NJ I-Bank Project No. S3404873-04 Contract 23-03 Clinton Township Sewerage Authority, Hunterdon County, New Jersey North Hunterdon Regional High School Pump Station Replacement, which consists of demolition of specific below grade structures associated with existing pump station and the installation of new pump station structures and equipment along with the rehabilitation of the existing brick operations building, with a project construction cost of \$1,751,000 were financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (Infrastructure Bank) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Infrastructure Bank to provide very low interest loans to borrowers for environmental infrastructure projects. This project will provide water quality benefits by replacing sewer conveyance infrastructure that has reached its useful life and requires renewal and replacement for continued safe and reliable operation for residents, businesses, and public schools in the service area of the Clinton Township Sewerage Authority, Hunterdon County. State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
